

Ambient temperature sensor

3S-AT-PT1000-CON

We supply economical ambient temperature sensors for universal application as well as for solar photovoltaics projects. Many different industrial output signals are available.

Solar Radiation Shield with Stainless Steel Mounting bracket is **not** included.

TECHNICAL DATA

General Information

Sensor type	PT1000 temperature probe with 6mm x 50mm stainless steel sleeve, IP67
Temperature range	-40...+85°C
Sensor housing	INOX steel tube, 6 mm diameter, 50 mm length
Cable	3 m or 5 m PVC or UV-resistant PUR cable with Binder 712 M9 3 pins conn.
Connection	Two wire
